ABOUT ME

A young student that's seeking for a work and challenge to do

while at home and have a lot of freetime that need to be used as efficiently and productive as possible.

I'm a really talented man that's really committed into Technology stuff such as: Coding, Design, Games.

I also like to listen to music while doing works, that's make me focused and hyped to do the tasks.

I'm a dependable person and can work with team easily and very communicative. I have experience being a leader of a team, I can manage my mates to do task efficiently. I've achieved a lot of my goals while doing so, most importantly time management and critical thinking. I really love playing with technology especially a new tech that I never see or use before as I really love challenge and learning something new. I'm From Indonesia in Kalimantan. Can easily develop the most efficient strategy.

EXPERIENCE
